Attached are tables and explanations for responding to Mr. Murray's questions. Karen is typing memo.

We have 2 questions to be resolved. Please advise.

① Retail prices - should we assume same coupon costs in '89 as in '88? (see back up table 2)

② Weighted state excise tax changes
we feel that states which increased taxes late in the year (ie, 1985) should be included in the following year's tax increase to get a truer effect. (see back up table 11a)

We are still reviewing all data + tables to determine any additional points to include in the commentary.
